 The Executive Board

CHANCE website

The CHANCE public website, accessible through www.chance-h2020.eu, has been set up and provides an overview of the project aimed at the larger public and at specific stakeholders, such as the end user group. The CHANCE website includes :

- project info,
- scope,
 - including project structure and
 - objectives
- the different work packages including short descriptions,
 - WP1 – management and coordination
 - WP2 – methodology for conditioned radioactive waste characterization: problematic wastes and R&D proposal
 - WP3 – calorimetry associated with non-destructive assay techniques and uncertainties study
 - WP4 – muon imaging for innovative tomography of large volume and heterogeneous cemented waste packages
 - WP5 – innovative gas and outgassing analysis and monitoring
 - WP6 – dissemination and training activities.
- access to the public deliverables,
- an overview of partners,
- and a dedicated end-user webpage.

The website also features a “news” and events” section and a contact email address link, as well as links to other relevant projects, frameworks, and organisations within the CHANCE domain. The website is regularly updated and during the Executive Board meetings the different Board members are invited to provide news updates which can be incorporated on the site.

Apart from the public website, a separate Sharepoint portal has been installed which is only accessible to CHANCE members. Within the Sharepoint, draft and working documents, posters and presentations, etc. can be uploaded, and discussions can be held between the CHANCE project partners.
